EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John DeAngelis on January 20, 2006.

The application has been amended as follows:

Title:

A Spiral Inductor Formed in a Semiconductor Substrate

Claims:

Claims 12 and 21-27 are cancelled.

Claim 10

A semiconductor device comprising: a semiconductor substrate; a plurality of active regions formed in the semiconductor substrate; a first dielectric layer overlying the semiconductor substrate; a plurality of conductive interconnect layers alternating with a plurality of dielectric layers for connecting to active regions, a continuous conductor formed in one of the plurality of conductive interconnect layers; and wherein the semiconductor substrate defines a first void therein in a region underlying the continuous conductor **and a tungsten plug extending from the continuous conductor to one of the plurality of active regions.**

Allowable Subject Matter

Claims 1-11 and 13-20 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-11 and 13-20 are allowable because prior art does not disclose alone or in combination with the limitations of the independent claims such as a substrate with void with an active region with a tungsten plug extending from the continuous conductor to an active region of the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
